Interim Review

**Employee
Comments:**

**Manager
Comments:**

**Senior Manager
Comments:** Prescott is new to the ePDR system and we are beginning the process post-interim.

Current Status: Not Started

Role Overview

**Role Overview
(Employee):** My current role as I understand it is to repair as many units as possible, as efficiently as possible while maintaining the highest possible quality and reliability. I also feel that I am responsible for making known any problems I observe and taking the steps necessary to correct them, especially as it relates to the quality and reliability of the equipment we repair. As time goes on, I am able to add more perceptions of my role to the list.
